Subject: Question on federal stack testing requirements - Impact of timing/extensions due to virus

Hi Anna-

On behalf of one of Trinity's clients, I am reaching out to try and determine if there is any Region V or other federal EPA guidance related to requesting extensions for stack tests required under federal rule. If my client has to complete stack testing per the Federal regulation (such as a MACT standard) to meet a deadline, with the COVID-19 restrictions, site visitor restrictions, and stack tester's restrictions, is EPA Region V approving waivers to extend the testing time? If so, what is the best process to request an extension?

I would greatly appreciate any guidance you can provide.

Thank you
 Amanda Jennings
